

The 2nd National Biomedical Laboratory Science Conference 2024; Current and Future Perspectives

5th – 6th APRIL 2024

Abstract Submission Guidelines

MABS is welcoming three abstract categories:

- a) Research study b) Case study and c) General topic

Each abstract should not exceed **300 words**.

a) **Research study** abstracts should be in line with the following guidelines:

- (i) indicate the specific purpose of the study;
- (ii) describe the methodology used to achieve the purpose, specifying sample size;
- (iii) present the key findings with supporting evidence;
- (iv) present the conclusions based on the data provided;
- (v) highlight the novelty of the work.

b) **Case study** abstracts should be in line with the following guidelines:

- (i) present the clinical background;
- (ii) describe the methodology used to study the case;
- (iii) present the key findings;
- (iv) highlight the conclusions and learning outcomes from the case study;

Interdisciplinary case studies will be given preference.

c) **General topic** abstracts will also be considered. Topics may include novel technologies or techniques, new frontiers and emerging fields related to Biomedical Science. Abstracts should include an overview of the proposed topic highlighting why the topic is of interest and cutting-edge.

Abstracts should not include references, figures or tables. All abbreviations should be defined when they appear in the text for the first time. Abstracts should be edited carefully and thoroughly before submission. Funding support declarations may be included and should not be considered in the word count. Only the contact details of the corresponding author should be included in the abstract submission form. The remaining co-authors shall be mentioned in the final version of the poster or presentation.

Abstracts should be submitted via MABS website [here](#) by 21st February 2024 at 23:59 (GMT+1).

Researcher(s) details should *not* appear on the Abstract field.

All submitted abstracts will be reviewed by the MABS Scientific Committee.

Abstracts will be evaluated according to their scientific/clinical merit and in line with the scope of the MABS Conference. General topic abstracts will be evaluated based on their educational value and innovation.

Authors of abstracts selected for oral presentation will be informed about the session, date of presentation, and presentation guidelines will be provided. This year's poster format will be digital only. Authors presenting a poster will be informed about the date of the poster session and will receive guidelines for preparation and presentation.

All accepted abstracts will appear in a special online version of MABS Conference Abstracts on the MABS website. In submitting an abstract, authors are consenting to its inclusion in these publications.

For an accepted abstract to be included in the final scientific programme it is mandatory for the presenting author to register attendance for the conference.
